

Emsisoft Emergency Kit

Especially made for helpdesk and PC repair use to scan and clean PCs.

Dual Scanner

100% Portable

CONVENIENCE

Threat Removal & Quarantine

Smart routines ensure a thorough cleaning, without risking the stability of the computer. Keeps detected objects in a safe, encrypted locker for further investigation before they are finally removed.

Tech Remarks

Also allows you to submit files to Emsisoft for analysis.

Advanced Logging

Keeps records of all activities from scanner, quarantine and updates.

Helpful for support to reproduce situations.

Privacy Conscious

This software does not send any user profile or private data to any cloud server.

Emsisoft is recognized as one of the most privacy-conscious antivirus companies by AV-Comparatives.

Emsisoft Business Emergency Kit

For organizations with max 50 Windows devices.

Designed for IT service technicians who regularly scan and clean their in-house or third party devices.

Emsisoft Enterprise Emergency Kit

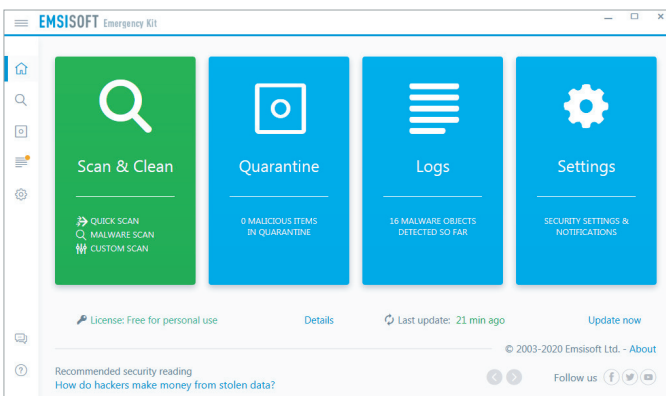

For organizations with more than 50 Windows devices.

Designed for larger organizations for scanning and cleaning their in-house devices.

INCLUDED COMPONENTS

Emsisoft Emergency Kit Scanner

Features the complete dual-scanner technology of Emsisoft Anti-Malware and a graphical user interface. Using millions of signatures for all types of Viruses, Trojans, Spyware, Adware, Worms, Bots, Keyloggers, Ransomware and other malicious programs.

Emsisoft Commandline Scanner

Contains the same functionality as the Emergency Kit Scanner but without a graphical user interface. The commandline tool is made for professional users and is perfect for batch jobs.

```
a2cmd.exe [path] [parameters]

Scan parameters (can be used together):

/F=[], /files=[path] Scan files. Full path to file or folder required

Ideal for both small PC repair shops and the helpdesk departments of large companies.

WHAT OTHERS SAY

"In the 21st century we are too quick to complain and seem to never give a pat on the back for a job well done. Well, here's a pat on the back: Emsisoft, Above The Finest!"

(Wes N., via Business Support)

"I want you and your colleagues to know why I will be staying with Emsisoft: It is a great product. It's very efficient and effective. What's equally important is your outstanding customer support — the best I've ever encountered."

(Louis G., Long-term Emsisoft Customer)

"Your product has detected two trojans that passed through a (redacted) Web Filter (with Spyware and Virus Protection) and at (redacted) in a Terminal-Server. Alone for this detection our small investment (for the license fee) has paid off!"

(Alberto C., Long-term Emsisoft Customer)

System Requirements

Any system that runs Windows 10 x64, Windows Server 2016/2019 or higher.

Important: Emsisoft Emergency Kit is effectively identical to Emsisoft Anti-Malware in its ability to scan and clean systems, but lacks active protection components. We do not recommend scanning with both on the same system.
